

Voisin Consulting Life Sciences – REGULATORY SCIENCE CAREERS

Voisin Consulting Life Sciences assists biotechnology, pharmaceutical and medical technology companies in the design and implementation of innovative and global regulatory strategies to expedite product development. Products include drugs, biologics, medical devices, *In-Vitro* Diagnostics, combination products, cell, gene and tissue therapies and borderline products including nutraceuticals and cosmeceuticals. We collaborate with start-ups and medium-sized companies to bring products to the market in the most efficient and cost-effective manner, within evolving regulatory frameworks.

VCLS offers various career opportunities to Regulatory Affairs professionals of all nationalities in the USA, Switzerland, India, Singapore and the UK.
